Re: ET Docket No. 01-278, Review of Part 15
Ex Parte Communication

Dear Ms. Dortch:

Pursuant to Section 1.1206(a)(2) of the Commission's Rules, I am filing this letter electronically to report oral ex parte communications in the above-referenced proceeding.

Yesterday, on behalf of the radar detector manufacturing industry, Janice Lee of RADAR, James R. Haynes of Uniden America Corp., Gregg P. Skall, Esq., of Womble Carlyle Sandridge & Rice, and I met with Ira R. Keltz, Karen Rackley, Alan J. Scrim, Ed Thomas, and Hugh L. van Tuyl of the Office of Engineering and Technology.

We proposed that regulation of radar detectors be limited to the manufacturing and import stages. As an aid to enforcement, we offered to provide the Commission with serial number lists to identify product manufactured before and after the date on which equipment authorization is required.

We requested that any requirement for equipment authorization not take effect until December 31, 2002.

We also sought assurance that the prescribed equipment authorization would be available starting on the first day it is required.

Today, either Mr. Skall and/or myself I had separate follow-up discussions with each of Peter Tenhula of Chairman Powell's office, Bryan Tramont of Commissioner Abernathy's office, Paul Margie of Commission Copps's office, Sam Feder of Commission Martin's office, and Mr. Scrim.
